MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Weekly Report of the Office of Training

1. Managerial Grid Copyrighters Set Position on Future Courses

25X1A5a1 [REDACTED] clarified its position about the Agency's continuing to offer Phase I of the copyrighted Managerial Grid during friendly but firm discussions on 26 March between [REDACTED] Account Executive, [REDACTED] and Support School Chief [REDACTED]. A full report is to be submitted next week when [REDACTED] promises to indicate its intent to prohibit the Agency from using any outside consultants in offering Phase I, including [REDACTED] or their own [REDACTED] representatives; to restrict the Agency to purchasing pre-work materials directly from [REDACTED] to stimulate the involvement of line managers as instructors in component Grids, and, by this same line of reasoning, to stimulate offerings of Phase II, III, and IV.

with CIA in the Harvard Crimson last October, writes the following:

"Extremist radicals here at the East Asian Center (that is grad students, no faculty fall into these categories) have decided that the best way to handle the problem that I present is to take a leaf out of John Foster Dulles' book and to isolate and contain me. Therefore, they refuse to speak with me in any way, shape, or form and have taken to rushing out of rooms and other offices if I happen to wander in I am told this decision is a compromise one, there being a group of them who wanted to mount a large and serious confrontation. This group, however, has been rather busy lately. They decided to go off to Paris to talk with the Chinese Communists in the Embassy there and assure them that there were students of Asian affairs who do not agree with the Administration's position on a wide range of problems having to do with China, Vietnam, and the Far East. A group of outsiders (mostly cast-off grad students from Columbia) are busy disrupting classes. Many of the faculty here feel that this is only the beginning and that they will soon get support from Harvard students as well. Thus, there is no way of knowing what might yet happen."

7. Non-Agency Briefings

The only non-Agency briefing during the reporting period was "International Communism Today" given to 31 students at FSI - Foreign Service Orientation.
